SYNTHETIC DEMONSTRATION DOCUMENT. Created 21 July 2026 for testing the Enid platform's inbound document digestion workflow. Not prepared, issued or approved by HS1 Limited, Helix Acquisition Limited, High Speed Rail Finance (1) PLC or any other HS1 entity, and not a record of any actual certification. All figures stated as at, or for the period to, 31 March 2026 are fictitious: the position is modelled from the audited figures for the year ended 31 March 2025 by reducing revenue by ten per cent. (£29.3m), flowing that reduction fully into operating cashflow, and holding all other cashflow lines and debt service flat. The Projected DSCR confirmation is wholly illustrative. The 31 March 2025 comparatives, threshold levels, and ratio definitions derive from public filings (HS1 bond prospectus dated 8 April 2015, Glossary pp. 325 and 353) and audited accounts as loaded on the Enid platform.
