

Cawdrey Crossing Operations Limited

the Cawdrey Crossing Group

COMPLIANCE CERTIFICATE

given pursuant to the Information Covenants under the Common Terms Agreement (as amended and restated on 3 June 2021) dated 14 September 2012 (as amended from time to time)

To: Calderwell Corporate Trustees Limited

Copy: Cawdrey Crossing Finance PLC (as Issuer); Fernaby Trust Company (UK) Limited (as Bond Trustee); Marlfield Agency Services Limited, as Agent, and each Rating Agency

Date of this Certificate: 21 July 2026

Test Date: 31 March 2026

Relevant Period (Historic Debt Service Cover Ratio): the twelve months ended 31 March 2026

Dear Sirs,

1. This Compliance Certificate is delivered to the Security Trustee pursuant to Clause 17.2 (Compliance Certificates) of the Common Terms Agreement dated 14 September 2012, as amended and restated on 3 June 2021, made between, among others, Cawdrey Crossing Operations Limited as Obligor, Cawdrey Crossing Finance PLC as Issuer, Cawdrey Crossing Holdings Limited as Parent and Calderwell Corporate Trustees Limited as Security Trustee (the "Common Terms Agreement"). Terms defined in the Common Terms Agreement bear the same meaning when used in this Certificate unless otherwise defined in it.
2. This Certificate is given in respect of the Calculation Date falling on 31 March 2026 and relates to the Test Period of twelve months ending on that date. It is delivered together with the audited consolidated financial statements of the Obligor for the financial year ended 31 March 2026.
3. Schedule 1 to this Certificate sets out the calculation of the Historic Debt Service Cover Ratio for the Test Period. Historic Consolidated Cashflow and Historic Consolidated Debt Service have each been derived from those financial statements and computed in accordance with Part 1 of Schedule 4 (Financial Covenants) to the Common Terms Agreement, applying the accounting principles referred to in Clause 16.1 (Financial Definitions). The Historic Debt Service Cover Ratio for the Test Period is 1.44:1.
4. We confirm that the Projected DSCR calculated as at the same Calculation Date for the twelve month period ending 31 March 2027, on the basis of the Base Case then in effect, is 1.52:1 and accordingly is not less than the Trigger Event ratio level of 1.20:1. No circumstance has arisen since the Calculation Date, and we are aware of no circumstance likely to arise, which would cause the Projected DSCR to fall below that level.
5. The forward-looking calculation in paragraph 4 has been prepared on assumptions which the directors of the Obligor consider reasonable as at the date of this Certificate, including as to traffic volumes, the indexation of the Regulated Toll and the completion of the northbound approach resurfacing programme within the current Authorised Budget.
6. No Default and no Trigger Event has occurred and is continuing as at the date of this Certificate, and none would result from the making of any Restricted Payment presently contemplated by the Obligor. No

amount standing to the credit of the Debt Service Reserve Account has been drawn during the Test Period, and the balance of that account satisfies the Required Balance.

7. The Obligor is in compliance with each of the financial covenants set out in Schedule 4 (Financial Covenants) to the Common Terms Agreement as at the Calculation Date.
8. This Certificate is given by the persons signing below in their capacity as directors of the Obligor and not so as to incur any personal liability, and may be relied upon by the Security Trustee, the Bond Trustee and each Secured Creditor.

SCHEDULE 1 — CALCULATION OF THE HISTORIC DEBT SERVICE COVER RATIO FOR THE TEST PERIOD ENDED 31 MARCH 2026 (£M UNLESS OTHERWISE STATED)

	£m
Net cash flow from operating activities before interest and taxation	214.6
Capital maintenance expenditure charged against the Maintenance Reserve Account	(38.2)
Interest and investment income received on Authorised Investments	6.9
Net receipts under Permitted Treasury Transactions and concession compensation	11.4
Historic Consolidated Cashflow (A)	194.7
Interest and equivalent finance charges paid on Senior Debt	96.5
Scheduled principal repayments and amortisation of Senior Debt	38.4
Historic Consolidated Debt Service (B)	134.9
Historic Debt Service Cover Ratio (A ÷ B)	1.44
Trigger Event ratio level (Part 1, paragraph 3.1, Schedule 4)	1.20
Event of Default ratio level (Part 1, paragraph 3.2, Schedule 4)	1.05
Historic Debt Service Cover Ratio — Calculation Date 30 September 2025	1.37
<i>Memorandum: Concession revenue, twelve months ended 31 March 2026</i>	<i>268.3</i>
<i>Memorandum: Concession revenue, twelve months ended 31 March 2025</i>	<i>281.5</i>
<i>Memorandum: Senior Debt outstanding at 31 March 2026</i>	<i>1,842.0</i>
<i>Memorandum: Debt Service Reserve Account balance at 31 March 2026</i>	<i>67.5</i>

The Historic Debt Service Cover Ratio of 1.44:1 for the Test Period ended 31 March 2026 exceeds both the Trigger Event ratio level of 1.20:1 and the Event of Default ratio level of 1.05:1. The Obligor is accordingly in compliance with the Historic DSCR covenant in respect of that Test Period, and no Trigger Event has occurred by reference to this Calculation Date.
